**Subject:** Uber

It really seems as though Uber is a wonderful and simple solution for keeping young people who have had a few drinks from behind the wheel of a vehicle. The Uber process seems to blend seamlessly into the lifestyle and daily processes of that generation with all access via a smartphone.....I fully support allowing this service to be available in South Carolina...Bill West

**Subject:** Uber

To Whom It May Concern,

I am a frequent user of Uber services. I travel to Charleston and many other cities for work and use Uber on average six times per week. I used Uber on my trip to Charleston this week. As a woman who has traveled weekly for eight years and has used taxis for six of those years, I can tell you I no longer use taxis unless absolutely necessary and for many reasons. I feel Uber is safer, the drivers are not only more courteous but they are better drivers, I receive a detailed accounting of my trip and I never have to worry if they will show up. I also receive notification of the driver's name and license plate number prior to their arrival and my entire trip is tracked via GPS which makes me feel very safe. I just heard you have ordered Uber to cease operations in SC and I can tell you this will likely affect how much business I do in your state. When I travel I use Uber to/from airports, to/from restaurants and to go to/from my place of business. I hate using taxis and I am very disappointed in your decision. Please know there are many, many travelers such as myself though no one seems to ever report about us or ask our opinion. Please know many of us can choose where we go for business and we do not like not having a choice of using Uber vs a taxi.

Kind regards,

Carol Bladh RN, CCRC

Please consider this email indicating my support for Uber. I have been using Uber in Charleston for several months and consider it safe and highly reliable. Even more so than taking a taxi cab. I would be very upset and inconvenienced if Uber is not allowed to operate in South Carolina. I believe it improves public safety and economic growth in Charleston.

I absolutely support Uber. I use Uber all over the country and even the world for business and pleasure. Having Uber is a clean, safe, and cost efficient solution to travel and I strongly encourage you to step up to the current times and readdress this decision, South Carolina.
